

CAREER™ TREK

A Career Education Resource for Teachers and Counselors

Career Trek is a career awareness program designed to teach children in elementary grades about the world of work. *Career Trek* broadens your students' career awareness. You can integrate *Career Trek* components into your existing curriculum or use the learning activities to extend students' career-related learning.

Career Trek's goals are based on the National Career Development Guidelines (NCDG) for developing career awareness in the elementary grades. *Career Trek* prepares students for effective participation in their middle and high school career development activities. It helps teach the importance of personal responsibility and good work habits, the development of skills to interact with others, an understanding of how to make decisions, and the development of skills to comprehend and use career information.

Occupation Card Deck

The deck includes 190 playing cards that employ descriptions, symbols, and unbiased illustrations to present occupational information. The cards can be used for classroom and small-group activities. They include consistent information about several important characteristics of the occupations -- cluster or occupational group, required level of math (use of numbers), required level of communication (use of words), education level, and earnings (money).

Teacher's Guide

The *Career Trek* Teacher's Guide explains *Career Trek* concepts and materials and how to use them. Sixty learning activities are provided, targeting fourth through sixth grade students. Overheads and worksheet masters can be printed as needed. The lessons focus on basic competencies for career development, such as interacting, learning and work, and life roles. The teacher's guide is provided via pdf files on a CD.

Dictionary of Occupations

A kit also contains a book of occupation descriptions for the 190 *Career Trek* occupations, in alphabetic order. Each description includes an illustration of someone in the occupation. The dictionary is a handy classroom reference.
